

# NEW PRODUCT

## FilterPlug™

Our new FilterPlug incorporates the features of an in-line filter directly into the pneumatic connector, or plug. This unique, patent-pending design provides true at-the-tool filtration and lessens the possibility of contamination, thus reducing wear and extending tool life. Best of all, this compact unit protects your tools while adding almost no weight or bulk.

### FEATURES AND BENEFITS

- Protects and extends the life of the tool.
- At-the-tool filtration without added weight or bulk.
- Available in the three most popular Interchanges: Industrial, ARO and Automotive.
- Back pressure from the tool automatically cleans the filter.

Sintered bronze element inside connector.

**Call Your Acme Rep or  
Acme directly at:  
732-432-7177**

### APPLICATIONS

- Pneumatic nailers, impact guns, sanders or any tool operating in a dirty or dusty environment.
