

NEW PRODUCT

Professional-Grade Inflator Gauge

This new Inflator Gauge provides easy and controlled inflation and deflation. The gauge is manufactured from die-cast aluminum for heavy duty use and the hose is made of durable EPDM rubber. The magnifying sightglass makes reading the gauge easy. A variety of air chuck types are available to suit your application.

FEATURES AND BENEFITS

- Scale reads 10 - 160 lbs. in 2 lb. increments.
- Easy-to-read, dual calibrated (PSI and kPa) internal pressure reading indicator.
- Provides easy and controlled tire inflation.
- 1/4" FPT inlet connection to direct air lines; 3/8 - 24 UNF male hose connection outlet.
- Rubber hose is 12".

APPLICATIONS

- For use on automobiles, motorcycles, bicycles, light trucks or any application requiring inflation.
