

NEW PRODUCT

Passenger Car Digital Tire Pressure Service Gauge

Backlit LCD display is easy-to-read!

This durable and easy-to-use gauge displays pressure with a high degree of accuracy, ensuring longer tire life and improved gas mileage.

THIS GAUGE IS TPMS COMPLIANT

A tire-pressure monitoring system (TPMS) is an electronic system to monitor the air inside a tire. TPMS delivers real time tire pressure information to the driver of the vehicle - either via a gauge or a simple low pressure warning light. These systems employ physical pressure sensors insides each tire and a means of sending that information from inside the tire to the vehicle instrument cluster.

FEATURES AND BENEFITS

- Durable construction
- Auto power off - simple operation
- Audible beep for signaling power on and pressure taking
- Large backlit display is easy to read in both sunlight and low-light conditions
- Displays pressure in a variety of units, including PSI, bar, kgf/cm2 and kPa

SPECIFICATIONS

Range: 2.0 - 100.0 PSI
 Display: 1/2" Backlit LCD
 Power: LR44 Alkaline
 Replacement Batteries: In Back of Gauge

Dimensions:
 Length: 7/8"
 Width: 1-1/2"
 Height: 7 5/16"
 Weight: 0.22 lbs

APPLICATIONS

- For measuring the air pressure of a car tire from 2 - 100 PSI, +/- .5 PSI accuracy.
