

Ball Swivel Connectors

Now Available in 3/8" Body Size!

Long available in the 1/4" body size, Acme Automotive has recently extended its line of ball swivel connectors to include a 3/8" body size for Industrial and Automotive interchanges.

Acme Automotive's ball swivel connector combines the best features of the ball swivel fittings and connectors. The result is a secure and ergonomic connection that eliminates the need for a separate swivel fitting.

The integral design also reduces leak points and creates a more lightweight tool-to-hose connection.

Ball Swivel Connectors

Features:

- ◆ Swivel ability extends hose life and minimizes user fatigue
- ◆ Integral design reduces leak points
- ◆ Connector and nut are nickel-plated hardened steel; threaded fitting is brass
- ◆ Available in both 1/4" MPT and 3/8" MPT in the Industrial, Automotive, and ARO interchanges
- ◆ Now available in 3/8" body size in Industrial and Automotive interchanges
